

## Application

Applicants must submit the following documents together with the completed application form:

- a signed CV (in tabular form) with publications list (see application form)
- a short project description that explains the preliminary work already carried out and a work plan detailing the content and schedule for the funding period in question (approx. three pages plus work plan)
- details of how the project fits into the applicant's career plan
- copies of the birth certificates of any children
- **Female postdoctoral researchers/habilitation candidates:**  
a statement from the department/institute to which the project is assigned on the scholarship holder's close institutional ties to the department/institute
- **Female doctoral candidates:**  
letter of support from their supervisor with original signature

Funding applications in German or English must be submitted in digital format. Please submit your application per e-mail to Ms. Cornelia Geisler, Assistant to the Faculty's Women's Representative, at [cornelia.geisler@fau.de](mailto:cornelia.geisler@fau.de).

Funding is subject to availability.

## Selection interview

Applicants must attend a selection interview. Please make an appointment with the Faculty's women's representative (appointment coordination: [cornelia.geisler@fau.de](mailto:cornelia.geisler@fau.de))

# Visiting Scholarships at the Faculty of Science

**Application  
deadline  
15th January or  
15th July**

### Funding for research stays abroad

With this innovative programme, the Faculty of Sciences is offering scholarships to support outstanding young female researchers from the Faculty with research stays abroad. Chairs at the Faculty can host international female researchers for a limited period of research if they have received this scholarship. This financial support is also offered to female researchers who are already on research stays abroad for a longer period and who would like to return to Germany.

### Funding objective

Scholarships are awarded to female researchers at FAU with above-average achievements, who are planning a research stay abroad and who are completing their doctoral degree, or postdoctoral/habilitation research at the Faculty of Sciences. The scholarships are also available to provide funding to young female researchers with above-average achievements from outside the University who are planning a research stay at FAU and who are currently in a comparable qualification phase.

### Information about scholarship

Funding is awarded to women who plan to pursue their research career with the aim of becoming a professor. The **duration** of the scholarship is between **one and maximum four months**. An extension is not possible. The monthly scholarship allowance is **EUR 1,200** for female doctoral candidates, **EUR 2,200** for female postdoctoral researchers and EUR 2,600 for female habilitation candidates, plus any childcare allowances. Female postdoctoral researchers and habilitation candidates must have **close institutional ties to FAU**.

### Scholarships for female doctoral candidates

Scholarships are preferably granted for the final phase of a doctoral degree if above-average achievements have already been demonstrated. The candidate must present evidence of preliminary work which meets this criterion. Only doctoral candidates who intend to later qualify as a professor at FAU may be considered for funding. Only female doctoral candidates who are registered in **FAU's doctoral research database docDaten** and have been admitted to a doctorate at FAU may apply.

### Scholarships for female postdoctoral researchers

These scholarships are intended to enable women with doctorates to start, continue and/or complete a project that qualifies them for a university career (junior professorship or habilitation). Applicants should generally have completed their doctorate with a minimum grade of 'sehr gut' (excellent; magna cum laude). Furthermore, the duration of the doctorate may generally not have exceeded four years. **The doctoral degree certificate must be submitted before the start of the scholarship.**

### Scholarships for female habilitation candidates

These scholarships are open to young female researchers pursuing a **habilitation** according to Section 65 of the Bavarian Higher Education Act (BayHSchG) as amended on 23 May 2006 and young female researchers who have completed their habilitation no longer than one year previously or who are in the initial stage of their junior professorship.
