

Funding for guest lectures by excellent women researchers

APPLICATION GUIDE

a) Aims and target group of funding

Under the Zielvereinbarungen (target agreements) for 2018–2022 concluded between the Faculty of Engineering and FAU, funding is available for outstanding women scientists to give lectures on certain subjects or career-related topics. It is hoped that guest lectures by female role models will motivate female students and young researchers to pursue a career in science. Guest women researchers can also be invited to hold a lecture with headhunting purposes in mind.

Funding is subject to availability.

b) Amount of funding

A maximum of €1000 in funding is available for lectures by female researchers from research institutions outside of Europe.

A maximum of €750 is available for guest lectures by female researchers from research institutes within Europe.

A maximum of €500 is available for guest lectures by female researchers from research institutes within Germany.

c) Application deadlines and scholarship allocation period

Applications for funding for a guest lecture can be filed at any time. However, funding is subject to the availability of funds which are allocated on an annual basis. The application must be filed at least 6 weeks before the lecture.
