International visiting scholarship

APPLICATION GUIDE

a) Aims and target group of funding

Research periods at foreign research locations are a central component of a career in research. The Faculty of Engineering offers outstanding young women researchers the possibility to apply for a scholarship as a guest researcher abroad (international visiting scholarship). The funding is provided within the framework of the Zielvereinbarungen (target agreements) for 2018–2022 concluded between the Faculty of Engineering and FAU.

Funding is provided for female post-doctoral researchers, habilitation candidates and junior professors to spend a period of time doing research abroad. Funding is only available for women who intend to pursue an academic career.

b) Amount of funding

The maximum amount of funding available for each application is €10,000. Funding is subject to availability.

c) Application deadlines and scholarship allocation period

The closing date for submitting your application is March 31, 2020. However, funding is subject to the availability of funds which are allocated on an annual basis.

The committee of women's representatives at the Faculty of Engineering decides whether to approve or reject the application for an international visiting scholarship. The final approval is granted by the Büro für Gender und Diversity (Dr. Magda Luthay; Coordination Office of the Zielvereinbarungen).

Please arrange an appointment with Ms. Stöcker in advance. This procedure enables us to check your documents and provide you with feedback straight away. The aim is to shorten processing times and reduce the amount of correspondence via e-mail, post and telephone.

Please note that after your documents have been checked, costs for the business trip are settled via the travel expenses office, Ref. P1, at FAU and it can take up to 6 months until the money reaches your account or costs are reimbursed.

**Original receipts**

- Only original receipts can be accepted (accommodation, travel costs, ticket fees etc.)
- In order to claim for accommodation costs, we need an invoice from where you stayed, stating the number of nights and a breakdown of how the overall costs are calculated. Please make sure that your invoice includes all this information.
- If you fly, you must also submit your boarding pass. Please arrange to have electronic boarding passes sent to you by e-mail and print them off.
- For all travel tickets you book (plane/train etc.), please be sure to include not only the confirmation of payment/invoice, but also proof of actual payment (credit card statement/bank statement).
  Conversely, credit card statements can only be recognised together with an original invoice showing the total of the invoice (accommodation/travel costs etc.).

**Please note:**

- Funding from the target agreements does not cover a daily allowance or subsistence costs.
- Only those amounts stipulated in the payment authorisation can be claimed for.
- Please make sure to complete all details: signature, name, (private) address, bank details etc. Only complete forms can be processed.

**f) Private stays before/after the journey**

If a private stay is planned before or after the research, costs should be broken down to compare travel costs in both instances (i.e. once with and once without the private stay).
